

Congratulations!

Jim Osmond (left), and **Jack Jones** (right), both passed their Private Pilot Checkride in October! Also, congratulations to instructor **Tim Gladson** on being hired by *Skyways Airlines* to fly a Beech 1900! We have seen a few changes in the last month. With Tim moving on, we have **Nick Scholtes** and **Andy Smith** doing quite a bit of instructing.... Sadly, the restaurant has **closed**. We have been told it *will* reopen, but no date has been set. The **runway will be shorter** for a while, as the first 600 feet of the south end now has chevrons and the lights have been moved to mark the new threshold of 36. One thousand feet will be added, and the projected completion date will be next July or August..... Congratulations to club member and owner of N66964 **Ron Dippner** on his recent marriage! He wants to keep the plane close to his new home, however, so it will not be available for leaseback. We still have C-172 N7297Q and are *very* excited about our new leaseback **Diamond Eclipse**, owned by **Scott Doorn**! Come out and give it a try! ... anyone interested in a Private Pilot groundschool, or have any interesting topics for a seminar? Let Cindy know....

DID YOU KNOW?

- **That you can file a NASA form online? Go to akama.arc.nasa.gov/**
- **You can download a Current Practical Test Standard Book? Go to <http://www.faa.gov/>**
- **You can search for an AME at http://www.faa.gov**
- **You can search for someone to fly with? Go to [Pilot Share The Ride](http://www.pilotshare.com/)**
