The new and improved version of FAR parts 61 & 141 are soon to be issued. [Click Here](#) to see a copy of the Federal Register (73 pages long, whew!) The first several pages provide an overview of the changes, so you might want to look at that. In August of 1997, the FAA issued the first half of the total regulation rewrite with the second half to come later. It's now later, and here it is! Happy reading ☺.....

CONTRATULATIONS Dennis Bute on Passing your Private Pilot Checkride August 12th!!!

WELCOME to new instructors **Kristen Frerichs** and **Jedd Morris**. Kristen has been teaching for a few years in the area and we are thrilled to have her come and fly with us. She is available afternoons during the week and weekends. Jedd, who flew with us when he was in high school, is now a graduate of Embry-Riddle and is available any day but Sat. and Sun. until about 1pm.....Instructor **Mike Bernier** is healing from the break of his collarbone ([Click HERE](#) to check out the X-ray... not for the faint of heart!) . He was given a date of September 10th to be able to fly again. I imagine there is not a movie he has not seen by now.... **Scott** will be going to Alaska soon to get his Seaplane rating! He wishes to pursue his goal of flying there..... Welcome new member **Rich Callender** who is working hard on his Private Certificate..... Blue Sky would like to extend best wishes and safe travel to member **Randy Huizenga** as he is being deployed September 4th overseas to serve our country. Thank you Randy!..... Check out this Blue Angels ride that was found by member Mike Pransky.

OCTOBER 10th!!! Blue Sky Fly Out to [Good's Furniture](#) in Kewanee, IL!! We can dine at the **Bistro, and browse the fine **gift shop and specialty furniture**. We will need to make reservations for the restaurant there for lunch. Check out their [website](#) and **RSVP by October 6th!** If you are a Blue Sky renter, book the plane now! Tentative departure of 10am.**

Congratulations **Pat Shroba** on your **FIRST SOLO** September 1st!!!

Renter's Corner

- **ARROW RENTERS:** please use the bar on the floor for traction to move the seat. Using heels on the carpet moves and bunches up the brand new carpet....by the way, the owner, Kent Karr, is still looking to sell shares in the Arrow.
- Thank you everyone for being careful with the nosewheel on the 172 and keeping the oil caps loose. ☺
- The **C152** has two new cylinders, so if you need oil it takes **Phillips 20/25 MINERAL**. It is a black container, not the blue. If in doubt, please call me. 815-252-1031.
- Please close the hangar doors when you take the plane, as per request of the airport manager.
- Trouble logging into the member site? Looking for keys? The plane has a squawk? Whatever! Call me 815-252-1031 or if not urgent email cindy@blueskyaero.com

"Mix ignorance with arrogance at low altitude and the results are almost guaranteed to be spectacular."— *Bruce Landsberg*

Fly Safe, Have Fun
