

Congratulations 2nd Lieutenant Mike Bernier and Katie Hauge on your engagement!!

Congratulations Kristen Sanders on passing your Private Checkride!!

Blue Sky News

Mike Bernier not only graduated 4th in his class at OCS on August 13th, but became engaged to the beautiful Katie Hauge on the same day!! Way to go Mike and Katie!.... Kristen Sanders came to Blue Sky to finish her private while on summer break from the U of I and went from pre-solo to Private in two months!!...Welcome new members and new students Justin Kunz and Kyler Cryder!... Our CFI Jedd Morris has had a busy summer (100 hours of flying in the last month!) with many students reaching the end of training and soon on to their checkrides. Thank you Jedd for all of your hard work.... You may have heard about a new Acro "Box" that the FAA grated at the Morris Airport. It is located at the NW corner on the outside of the pattern and when open will be NOTAMed and monitored by a person with a handheld on the ramp at Morris. Hopefully it will be active when you come out so you can watch someone practice their skills! Blue Sky hopes to sponsor a cook-out in October and invite some of the local aerobatic pilots to practice at the same time! It would be a good time to meet some new pilot-types and ask them about acro flying.....

Fly Safe, Have Fun!

The area's aviation community mourns the sudden loss due to cancer of a longtime friend and pilot Cynthia Lyons. She and her husband, David Underwood, from Naperville, own an Extra (you may have seen this beautiful plane at Morris as they frequently came in to practice aerobatics). Often sporting a big, colorful hat and always a huge smile, she undertook flying with great gusto. We will miss you, Cynthia.

Friday - Sunday, Sep 9-11, 2011 — Mt. Vernon, IL. [PLANE and PILOT MIDWEST LSA EXPO](http://www.midwestlsashow.com) - <http://www.midwestlsashow.com>, Mt. Vernon Outland Airport
